TARGET AUDIENCE
This course is intended for the following audiences:

• Application Consultant
• Project Manager
• IT Support
• Super / Key / Power User
UNIT 1
Sales-Order-Related Production Scenarios in Cost Object Controlling

Lesson 1: Managing Sales Orders

Lesson Objectives
After completing this lesson, you will be able to:

• List processes in sales order management

Lesson 2: Controlling Scenarios in Make-to-Order (MTO)

Lesson Objectives
After completing this lesson, you will be able to:

• Outline the controlling scenarios in make-to-order (MTO) production
Lesson 1: Using a Sales Order for Make-to-Order (MTO) Production

Lesson Objectives
After completing this lesson, you will be able to:

- Create a sales order for make-to-order (MTO) production
- Check the preliminary costing of sales orders for MTO production

Lesson 2: Using Simultaneous Costing of Sales Orders for Make-to-Order (MTO) Production – Purchasing

Lesson Objectives
After completing this lesson, you will be able to:

- Purchase a material for make-to-order (MTO) production

Lesson 3: Using Simultaneous Costing of Sales Orders for Make-to-Order Production (MTO) – Production

Lesson Objectives
After completing this lesson, you will be able to:

- Produce or deliver a material for make-to-order (MTO) production
Lesson 1: Configuring Sales Orders for Make-to-Order (MTO) Production 1

Lesson Objectives
After completing this lesson, you will be able to:

- Outline the structure of a sales order
- Determine an item category

Lesson 2: Configuring Sales Orders for Make-to-Order (MTO) Production 2

Lesson Objectives
After completing this lesson, you will be able to:

- Determine the requirements class
- Determine the account assignment category
- Determine the valuation of individual stock
Lesson 1: Calculating Overhead Costs for Sales Orders

Lesson Objectives
After completing this lesson, you will be able to:

- Calculate overhead costs for sales orders

Lesson 2: Calculating Work in Process (WIP) and Production Order Variances

Lesson Objectives
After completing this lesson, you will be able to:

- Calculate WIP and production order variances

Lesson 3: Carrying Out Results Analysis and Settling Sales Orders

Lesson Objectives
After completing this lesson, you will be able to:

- Outline how results analysis is performed and how sales orders are settled

Lesson 4: Performing Results Analysis for Sales Orders

Lesson Objectives
After completing this lesson, you will be able to:

- Perform results analysis for sales orders

Lesson 5: Configuring Results Analysis

Lesson Objectives
After completing this lesson, you will be able to:

- Configure results analysis

Lesson 6: Settling Sales Orders
Lesson Objectives
After completing this lesson, you will be able to:

- Settle sales orders
Lesson 1: Product Cost Controlling Information System (CO-PC)

Lesson Objectives
After completing this lesson, you will be able to:

- Outline the structure and tools of the Product Cost Controlling Information System (CO-PC)

Lesson 2: Using Detailed Reports

Lesson Objectives
After completing this lesson, you will be able to:

- Use SAP List Viewer

Lesson 3: Using Object Lists

Lesson Objectives
After completing this lesson, you will be able to:

- Use the sales order selection report

Lesson 4: Performing Cost Object Summarization

Lesson Objectives
After completing this lesson, you will be able to:

- Perform cost object summarization
