TARGET AUDIENCE
This course is intended for the following audiences:
Lesson 1: Introduction

Lesson Objectives
After completing this lesson, you will be able to:

- Name the components of a MaxDB database instance and the database tools
- Describe the architecture of an SAP NetWeaver system with MaxDB

Lesson 2: Tools and Interfaces

Lesson Objectives
After completing this lesson, you will be able to:

- 

Lesson 3: Architecture and Operational States

Lesson Objectives
After completing this lesson, you will be able to:

- 

Lesson 4: MaxDB and SAP NetWeaver

Lesson Objectives
After completing this lesson, you will be able to:

- 

Lesson 5: Integration with SAP NetWeaver

Lesson Objectives
After completing this lesson, you will be able to:

- 

Lesson 6: Server Landscape for This Course
Lesson Objectives
After completing this lesson, you will be able to:

•
Lesson 1: Overview of Database Studio

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 2: Important Sources of Information in Database Studio

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 3: MaxDB Users in the SAP Environment

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 4: Administration of Disk Areas for Data and Logs

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 5: Configuration Changes

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 6: DB FULL and LOG FULL Situations

Lesson Objectives
After completing this lesson, you will be able to:

- 

**Lesson 7: Database Parameters**

**Lesson Objectives**
After completing this lesson, you will be able to:

- 

**Lesson 8: Tools for Exercises**

**Lesson Objectives**
After completing this lesson, you will be able to:

-

Lesson 1: Overview

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 2: Complete Data Backups

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 3: Incremental Data Backups

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 4: Log Backups

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 5: Automatic Log Backups

Lesson Objectives
After completing this lesson, you will be able to:

Lesson 6: Checking Backups

Lesson Objectives
After completing this lesson, you will be able to:

- 

**Lesson 7: Backup Strategy**

**Lesson Objectives**
After completing this lesson, you will be able to:

- 

**Lesson 8: Advanced Backup Functions**

**Lesson Objectives**
After completing this lesson, you will be able to:

- 

Lesson 1: Initial Situation and Analysis
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 2: Strategy
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 3: Performing Recoveries
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 4: Using Mirrored Log Volumes
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 5: Processes in the Database
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 6: Action Matrix
Lesson Objectives
After completing this lesson, you will be able to:

•
UNIT 6
Other Administrative Topics

Lesson 1: Checking Databases
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 2: Creating Database Instances
Lesson Objectives
After completing this lesson, you will be able to:

Lesson 3: Reinitializing Database Instances
