TARGET AUDIENCE
This course is intended for the following audiences:

- Application Consultant
- Developer
- Development Consultant
- Solution Architect
Lesson 1: Describing the Motivation for Operational Process Intelligence

Lesson Objectives
After completing this lesson, you will be able to:

- Describe the motivation for Operational Process Intelligence
Lesson 1: Getting an Overview of the Solution

Lesson Objectives
After completing this lesson, you will be able to:

• Get an overview of the solution
Lesson 1: Understanding the Technical Requirements and Preparations

Lesson Objectives
After completing this lesson, you will be able to:

- Understand the technical requirements and preparations
Lesson 1: Assigning Roles to SAP Operational Process Intelligence Users

Lesson Objectives
After completing this lesson, you will be able to:

• Assign Roles to SAP Operational Process Intelligence Users
Lesson 1: Building the Smart Process Application Project

Lesson Objectives
After completing this lesson, you will be able to:

- Build the smart process application project

Lesson 2: Modeling the Business Scenario

Lesson Objectives
After completing this lesson, you will be able to:

- Model the business scenario

Lesson 3: Using Functions for Business Scenario Projects

Lesson Objectives
After completing this lesson, you will be able to:

- Use functions for business scenario projects

Lesson 4: Using 3rd Party Process Participants in Business Scenario

Lesson Objectives
After completing this lesson, you will be able to:

- Use 3rd party process participants in business scenarios

Lesson 5: Extending the Smart Process Application Project

Lesson Objectives
After completing this lesson, you will be able to:

- Use extended functions for business scenario projects

Lesson 6: Enhancing the Smart Process Application Project

Lesson Objectives
After completing this lesson, you will be able to:

- Enhance the smart process application project

**Lesson 7: Using SAP ERP Process Participant in Business Scenario**

**Lesson Objectives**
After completing this lesson, you will be able to:

- Use SAP ERP process participants in business scenarios
Lesson 1: Using advanced Functions of Business Scenario
Lesson Objectives
After completing this lesson, you will be able to:
• Use Artifacts

Lesson 2: Using Further Functions in the Business Scenario
Lesson Objectives
After completing this lesson, you will be able to:
• Use further functions in the business scenario
Lesson 1: Understanding the Use Cases for Operational Process Intelligence

Lesson Objectives
After completing this lesson, you will be able to:

- Understand the use cases for Operational Process Intelligence
Lesson 1: Transporting a Business Scenario Project

Lesson Objectives
After completing this lesson, you will be able to:

• Transport a business scenario project
Lesson 1: Using the BPMN Standard
Lesson Objectives
After completing this lesson, you will be able to:

• Use the BPMN standard

Lesson 2: Creating HANA Workflows
Lesson Objectives
After completing this lesson, you will be able to:

• Create HANA workflows

Lesson 3: Integrating HANA Workflows in Business Scenarios
Lesson Objectives
After completing this lesson, you will be able to:

• Integrate HANA workflows in business scenarios

Lesson 4: Consuming HANA Workflow APIs
Lesson Objectives
After completing this lesson, you will be able to:

• Consume HANA workflow APIs

Lesson 5: Modeling a HANA Rule
Lesson Objectives
After completing this lesson, you will be able to:

• Model a HANA rule
