vii **Course Overview**

1 Unit 1: HCM Authorization Basics

- 1 Lesson: Outlining HCM Authorizations
- 1 Lesson: Creating User Master Records
- 1 Lesson: Copying SAP-Delivered Roles

3 Unit 2: General Authorization Checks

- 3 Lesson: Outlining HCM Authorization Checks
- 3 Lesson: Setting Up an Authorization
- 3 Lesson: Defining SAP E-Recruiting Authorization Objects
- 3 Lesson: Defining Personnel Planning Authorization Objects
- 3 Lesson: Defining Transaction Code Authorizations
- 4 Lesson: Assigning HR Cluster Data Authorizations
- 4 Lesson: Defining Customer-Specific HR Authorization Objects
- 4 Lesson: Setting Up Authorization Verification

5 Unit 3: Indirect Role Assignment

- 5 Lesson: Assigning Roles Indirectly

7 Unit 4: Period of Responsibility for Administrators

- 7 Lesson: Determining the Period of Responsibility for Administrators
- 7 Lesson: Outlining Time Logic for Data Access

9 Unit 5: Payroll Authorization Objects

- 9 Lesson: Defining Payroll Authorization Objects
- 9 Lesson: Controlling Access to Schemas and Personnel Calculation Rules

11 Unit 6: Authorization Check for Evaluations

- 11 Lesson: Setting Up Selection Periods for Evaluations
- 11 Lesson: Creating Authorizations for the HR: Reporting Object

13 Unit 7: Structural Authorizations

- 13 Lesson: Outlining the Structure of the Personnel Planning Data Model
- 13 Lesson: Outlining Structural Authorization Profiles
- 13 Lesson: Creating Overall Authorization Profiles
- 13 Lesson: Generating Authorizations
- 13 Lesson: Improving System Performance for Structural Authorization Profiles

15 Unit 8: The Context Solution

- 15 Lesson: Solving Context-Sensitive Authorizations

17 Unit 9: Additional Aspects of the General Authorization Check

- 17 Lesson: Outlining Organizational Key Authorization Checks

19 Unit 10: HR Authorization: Optimization

- 19 Lesson: Optimizing HR Authorizations

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Application Consultant
- Business Process Owner/Team Lead/Power User
- Data Consultant/Manager

Lesson 1: Outlining HCM Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Outline HCM authorization types
- Outline the general authorization check
- Outline the structural authorization check

Lesson 2: Creating User Master Records

Lesson Objectives

After completing this lesson, you will be able to:

- Create a user master record for an existing employee

Lesson 3: Copying SAP-Delivered Roles

Lesson Objectives

After completing this lesson, you will be able to:

- Copy SAP-delivered sample roles

Lesson 1: Outlining HCM Authorization Checks

Lesson Objectives

After completing this lesson, you will be able to:

- Outline HCM authorization objects
- Outline the process of checking master data storage on infotypes during authorization checks
- Outline the authorization check used when HR infotypes are edited or read
- Outline the personnel number check used to control user access to personal information

Lesson 2: Setting Up an Authorization

Lesson Objectives

After completing this lesson, you will be able to:

- Set up authorizations for an administrator

Lesson 3: Defining SAP E-Recruiting Authorization Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Define SAP E-Recruiting authorization objects

Lesson 4: Defining Personnel Planning Authorization Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Define the Personnel Planning authorization objects

Lesson 5: Defining Transaction Code Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Define authorizations for HR transactions without authorization objects

Lesson 6: Assigning HR Cluster Data Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Assign HR cluster data authorization to administrators

Lesson 7: Defining Customer-Specific HR Authorization Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Define customer-specific HR authorization objects

Lesson 8: Setting Up Authorization Verification

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the asymmetrical double verification principle
- Outline the symmetrical double verification principle
- Set up a double verification for administrators

Lesson 1: Assigning Roles Indirectly

Lesson Objectives

After completing this lesson, you will be able to:

- Outline organizational management authorizations
- Outline user assignments
- Compare user authorization assignments

Lesson 1: Determining the Period of Responsibility for Administrators

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the connection of the period of responsibility to time logic
- Outline the process of system determination of the period of responsibility
- Outline the concept of tolerance times for authorization checks
- Outline time dependency of the authorization check

Lesson 2: Outlining Time Logic for Data Access

Lesson Objectives

After completing this lesson, you will be able to:

- Outline read access time logic
- Outline write access time logic
- Describe the application of time-dependent logic
- Lock the data using the time-dependent authorization

Lesson 1: Defining Payroll Authorization Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Outline authorizations used for the personnel control record
- Outline authorizations used to control the posting of payroll results to accounting
- Outline the authorizations used for the off-cycle workbench

Lesson 2: Controlling Access to Schemas and Personnel Calculation Rules

Lesson Objectives

After completing this lesson, you will be able to:

- Set up an authorization to control access to schemas and personnel calculation rules

Lesson 1: Setting Up Selection Periods for Evaluations

Lesson Objectives

After completing this lesson, you will be able to:

- Set up the selection period for an evaluation
- Determine if personnel numbers were skipped during authorization checks

Lesson 2: Creating Authorizations for the HR: Reporting Object

Lesson Objectives

After completing this lesson, you will be able to:

- Create an authorization for the HR reporting object for payroll reports

Lesson 1: Outlining the Structure of the Personnel Planning Data Model

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the connection between the personnel planning data model and evaluation paths

Lesson 2: Outlining Structural Authorization Profiles

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the elements included in structural authorization profiles

Lesson 3: Creating Overall Authorization Profiles

Lesson Objectives

After completing this lesson, you will be able to:

- Create an overall authorization profile

Lesson 4: Generating Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Outline authorizations for organizational objects
- Generate user authorizations using the RHPROFLO report

Lesson 5: Improving System Performance for Structural Authorization Profiles

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the method to improve system performance for structural authorization profiles

Lesson 1: Solving Context-Sensitive Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Outline issues related to the technical separation of general and structural authorization profiles
- Outline how using context authorization objects can solve authorization issues
- Generate context authorization objects

Lesson 1: Outlining Organizational Key Authorization Checks

Lesson Objectives

After completing this lesson, you will be able to:

- Outline authorization checks that use the organizational key
- Update an organizational key authorization

Lesson 1: Optimizing HR Authorizations

Lesson Objectives

After completing this lesson, you will be able to:

- Evaluate HR authorization profiles
- Outline the setup for employee views of data in ESS
- Restrict the maintenance of user data by the user
- Outline the use of checks based on infotype subtypes
- Outline the setup of authorizations for batch input sessions
- Recognize the redundant read of objects
- Outline customer enhancements available using business add-ins (BAIs)
